This Digital Elevation Model (DEM) was derived from the (2007) LIDAR and terrain data collected by the Southwest Florida Management District (SWFWMD). The existing SWFWMD LIDAR and terrain data was processed to a DEM at a five foot spacing, tiled, and numbered into 5000' x 5000' tiles according to the Florida Statewide (2007) tiling scheme for the Topographic Information and Publication System (TIPS) project in 2008. The tiles were then mosaiced by the Sumter County GIS department.

Produced By: The Sumter County GIS Department

Date Prepared: June 3, 2009

This map product was prepared from a Geographic Information System established by the Sumter County GIS Department. The Sumter County GIS Department, its employees, agents and personnel, make no warranty to its accuracy, and in particular its accuracy as to labeling, dimensions, contours, property boundaries or placement or location of any map features thereon.
